SUMMARY

Backend-focused **MERN Stack Developer (Fresher, 2025)** with hands-on experience building full-stack applications using **Node.js, Express.js, MongoDB, and React.js**. Strong understanding of **REST APIs, JWT authentication, Google OAuth, schema design, and end-to-end project lifecycle** (planning → documentation → development → testing). Passionate about building scalable backend systems and clean API architecture.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3

Frontend: React.js, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB

Tools: Git, GitHub, Postman

Concepts: REST APIs, JWT Authentication, Google OAuth, Monolithic Architecture, Cloudinary Integration, Email Workflows

PROJECTS

NEXORA – Deal Sharing Web App (MERN)

Final Year Project | 2025

- Built a **role-based MERN** platform (User / Business / Admin) for deal discovery and management.
- Developed REST APIs using **Node.js + Express.js** with modular controllers/routes (monolithic architecture) and tested via **Postman.JWT**
- Implemented **JWT authentication + RBAC** for protected endpoints and dashboards.
- Integrated **Google OAuth 2.0** for secure login and improved user onboarding experience.
- Added **Cloudinary uploads** and email workflows (**password reset + notifications**).
- Delivered core modules: business registration & approval flow, search/filtering, admin analytics, and responsive UI.

Tech Stack: React, Bootstrap, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Google OAuth, Cloudinary, Postman

TRAINING / EXPERIENCE

MERN Stack Training (Project-Based)

Royal Technosoft | Jan 2025 – Apr 2025

- Learned MERN stack development through structured project-based learning and real-world feature implementation.
 - Practiced full project lifecycle including requirement discussion, documentation, schema planning, and implementation.
 - Worked on a deal discovery platform project (NEXORA), focusing mainly on backend development.
 - Built REST APIs, implemented authentication flows, and designed MongoDB schemas for scalable feature development.
-

EDUCATION

B.E. Computer Engineering

Shree Swaminarayan Institute of Technology, Gandhinagar

2021 – 2025 | **CGPA: 7.43**
